

New Hampshire **Out-of-School Time** Convention

Engage & Elevate:
Take OST to New Heights

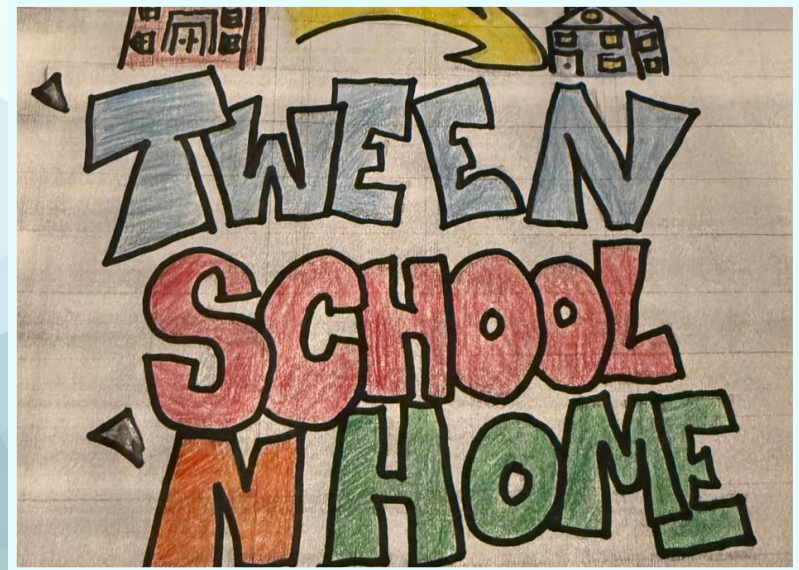

This program was selected as Program of the Year for its exceptional commitment to high-quality, intentional out-of-school time programming and its deep, longstanding impact within the community.

With over four decades of service, this program has created a seamless connection between the school day and out-of-school time, maintaining strong collaboration with school staff to support each child's academic, social, and emotional development. Their approach reflects a true understanding that OST is not separate from the school experience—but an extension of it.

The program offers a wide range of enriching opportunities that are both responsive and innovative. From language classes and wellness activities to creative arts, tutoring, and special performances, This continuously evolves to meet the interests and needs of the youth and families it serves.

What truly sets this program apart is its commitment to youth voice and leadership. Children are encouraged to share ideas, take ownership of activities, mentor younger peers, and even lead community events. Through initiatives like family engagement nights and service projects, youth are not only participating—they are contributing to and shaping their community. The program also demonstrates a strong commitment to accessibility and inclusion, ensuring that all families have the opportunity to participate, even in the face of financial challenges.

Above all, this program stands out because of the environment it creates—one where children feel safe, valued, and inspired; where staff are deeply engaged; and where families trust that their children are receiving high-quality care and meaningful experiences every single day.
