

Fund IRL
NEW HAMPSHIRE

New Hampshire
Afterschool Network

A statewide coalition convened by NHAN

Let's fund something worth logging off for.

SOCIAL MEDIA ACCOUNTABILITY. REAL-LIFE OPPORTUNITY.

Social media settlement resources should be reinvested in New Hampshire young people through real-life opportunities, caring relationships, and supports that help them thrive.

Together, families, youth, educators, and community partners can call for any available settlement funds to expand access to youth opportunity and well-being. Let young people help shape the investments and make decisions transparent.

OUR SHARED CALL: INVEST IN

Afterschool & summer opportunities

More places to explore, create, and connect.

Expand afterschool and summer programs, sports and recreation, arts and music, and outdoor experiences. Reduce cost and transportation barriers so more young people can participate.

Mentoring, belonging & youth leadership

Caring adults. Strong relationships. Youth voice.

Invest in mentoring and welcoming spaces where young people build friendships, lead projects, and shape their communities. Support prevention through connection and trusted adults.

Mental health & wellness

Support that meets young people where they are.

Strengthen accessible mental health and wellness supports, early help, and connections to care. Bring programs, families, and community partners together around youth well-being.
